

S1 Table. Sample collection localities, locality coordinates, and number of each species sampled in each year (*N. robustus* / *N. bivocatus*).

Locality	Coordinates	2006	2013	2014
Atlanta State Wildlife Area	39.9, -92.5	-- / --	2 / 7	-- / --
Dunn Ranch Prairie	40.5, -94.1	-- / --	4 / 1	-- / --
Eagle Bluffs Conservation Area	38.9, -92.5	8 / --	8 / 2	17 / --
Grassland Trailhead	38.9, -92.3	-- / --	-- / 5	-- / --
Oberle Prairie	40.1, -92.8	-- / --	-- / 4	-- / --
Star School Hill Prairie Conservation Area	40.6, -95.6	-- / --	5 / --	-- / --
Three Creeks Conservation Area	38.8, -92.3	2 / 7	5 / 4	3 / --
Tucker Prairie Natural Area	38.9, -91.0	1 / --	2 / --	-- / --

Species assignments were determined based on call phenotypes as show in Figure 1 and described in the methods. The six individuals possessing intermediate phenotypes are not included.
