

Supplementary Material 1. An overview of the sampling sites: coordinates, detected specimens of *Cimex lectularius* in this study and the known bat species and their estimated numbers in each site.

SAMPLING SITES	COORDINATES	<i>Cimex lectularius</i>	BAT SPECIIS	ESTIMATED NUMBER (YEARS)	SOURCE
GEORGIA					
Cave Ghliana	N42.37°/E42.59°	0	<i>Myotis blythii</i> <i>Miniopterus schreibersii</i> <i>Miniopterus schreibersii</i> <i>Rhinolophus ferrumequinum</i> <i>Rhinolophus euryale</i> <i>Myotis emarginatus</i>	8000, all species in total (2019)	Natradze et al. 2023
Becho Cave/Tunnel	N42.53°/E41.99°	0	<i>Myotis blythii</i> <i>Miniopterus schreibersii</i> <i>Rhinolophus ferrumequinum</i> <i>Rhinolophus euryale</i>	1500, all species in total (2022)	Natradze et al. 2023
Letsurtsume Cave	N42.53°/E42.11°	0	<i>Miniopterus schreibersii</i> <i>Rhinolophus ferrumequinum</i> <i>Rhinolophus Euryale</i> <i>Myotis emarginatus</i>	250, all species in total (2014)	Natradze et al. 2023
Gremi Church	N42.00°/E45.66°	2 males, 1 female	<i>Rhinolophus ferrumequinum</i> <i>Myotis emarginatus</i>	400, both species in total (2021)	Natradze et al. 2023
Tsminda Stepane Church	N42.01°/E45.62°	0	<i>Rhinolophus ferrumequinum</i> <i>Miniopterus schreibersii</i>	1200, both species in total (2021)	Natradze et al. 2023

Church near the Pichkhovani Village	N42.07°/E45.30°	3 males, 2 females	<i>Myotis blythii</i>	1200 (2022)	Natradze et al. 2023
ARMENIA					
Arakelots Monastery	N41.03°/E45.06°	2 females	<i>Myotis blythii</i> <i>Miniopterus pallidus</i>	1000 (2022) 30 (2022)	this study
University Old Camp	N40.74°/E44.81°	0	<i>Pipistrellus pipistrellus</i> <i>Pipistrellus kuhli</i>	25 (2003) 30 (2003)	Papov 2003
Getashen Cave	N39.69°/E45.56°	0	<i>Rhinolophus euryale</i> <i>Rhinolophus ferrumequinum</i>	50 (2007-2010) 450 (2007-2010)	Ghazaryan 2010
Magel Cave	N39.71°/E45.20°	0	<i>Rhinolophus ferrumequinum</i> <i>Rhinolophus euryale</i>	50 (2008- 2022) 12 (2008-2022)	Baloyan 2008, Anonymous 2017, this study
Noravank	N39.68°/E45.23°	0	<i>Myotis schaubi</i>	10-25 (2021-2022)	this study
Areni 1 Cave	N39.73°/E45.20°	0	<i>Barbastella capsica</i> <i>Eptesicus serotinus</i> <i>Myotis blythii</i> <i>Myotis davidi</i> <i>Myotis schaubi</i> <i>Pipistrellus pipistrellus</i> <i>Pipistrellus kuhli</i> <i>Rhinolophus ferrumequinum</i> <i>Rhinolophus euryale</i> <i>Miniopterus pallidus</i>	30 (2008, 2017) For the other species no information of estimated numbers is available.	Baloyan 2008, Anonymous 2017
Old garages	N39.72°/E45.18°	0	<i>Myotis davidii</i> <i>Pipistrellus pipistrellus</i>	25 (2010,2022) 10 (2010, 2022)	Ghazaryan 2010, this study
Metsamor Cave	N40.12°/E44.18°	0	<i>Myotis blythii</i> <i>Miniopterus pallidus</i>	10 (2017) 8 (2017) 50 (2017)	Anonymous 2017

			<i>Rhinolophus ferrumequinum</i>
