

## **Supplementary Material 6 Documentation S1: Nucleotide differences between the isolates in this study**

We compared the nucleotide differences between the isolates in this study to confirm that they are not clones.

Between BJFUCC41 and BJFUCC41-2, there were 2 character differences in the ITS region (sites: 23, 590).

Between BJFUCC61 and BJFUCC61-2, there were 1 character difference in the ITS region (site: 606), 1 character difference in the *tub2* region (site: 442), and 1 character difference in the *tef-1a* region (site: 556).

Between BJFUCC52 and BJFUCC52-2, there was 1 character difference in the ITS region (site: 501), 1 character difference in the *tub2* region (site: 48).

Between BJFUCC83 and BJFUCC83-2, there were 1 character difference in the ITS region (site: 591), 2 character differences in the *tub2* region (sites: 443, 444), and 1 character difference in the *tef-1a* region (site:529).
