

Supplementary file 1 – ‘Distribution maps of plant species’ to the paper Nota et al. ‘An evaluation of ‘pollinator-friendly’ wildflower seed mixes in Italy: are they potential vectors of alien plant species?’ published in Neobiota. Distribution maps were retrieved from the Portal to the Flora of Italy (<https://dryades.units.it/floritaly/>)

*Crepis sancta*

*Glebionis segetum*

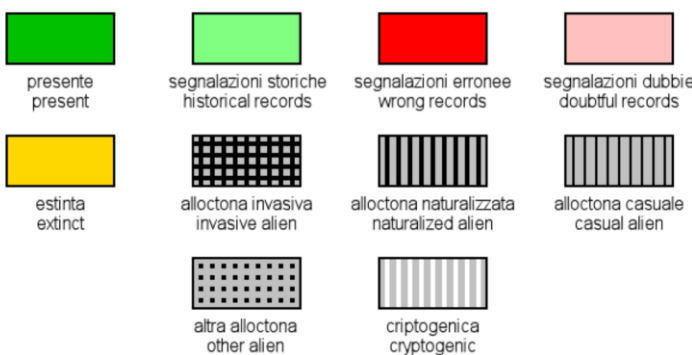

*Lobularia maritima*

*Lupinus polyphyllus*

*Mirabilis jalapa*

*Oenothera glazioviana*

*Phacelia tanacetifolia*

*Plantago media*

*Sinapis alba*

*Trifolium resupinatum*

*Tropaeolum majus*
